Creativity

Overview

Experienced Fullstack Developer with advanced frontend expertise (**React, Vue, UX/UI**) and strong backend experience (**REST APIs, PHP, SQL, Azure**).

Successful projects for **Eldora, Air France and HeyPongo**, involving design and deployment of complex applications.

Focused on **Clean Code, TDD, DDD**, and aiming to expand backend contribution with **Java/Spring Boot** (personal project in microservices architecture).

Technical Skills

Frontend: React.js, Vue.js, TypeScript, Tailwind, Bootstrap, Fluent UI

Cloud & DevOps: Azure, GitLab, Docker

Backend: Java (Spring Boot – personal project), PHP (Silverstripe, Symfony, Laravel), REST APIs

Quality: Cypress.io, TDD, DDD, Clean Code

Databases: SQL, MySQL

Methodologies: Agile (Scrum, Kanban)

Experience

06-2023 / Present SWITZERLAND

FULLSTACK DEVELOPER / SENIOR UI ELDORA SA (Rolle, VD)

- Development and deployment of 15+ web applications independently (React, PHP, Azure, SQL).
- Multi-site restaurant platform: automated generation of websites for 200+ establishments.
- Privacy Center GDPR/ToS: automated generation of legal documents.
- Event photo gallery, internal shop, training and Teams integrations.
- Cache & dynamic eviction (Azure AD tokens), secured API, custom font packaging (Gulp).
- SSO Authentication with Microsoft MSAL API.
- Tickets App – Teams/Planner: created an application connecting ticket management to Teams and Planner with alerts and collaborative tracking.
- Employee Forms App: digitization of internal forms with automated validation steps and team-based tracking.

Impact: Insourced and consolidated 200+ externally-managed websites into one internally-owned multisite generation platform.

01-2024 / Present

[TDD \(JUnit, Mockito\)](#) [Docker](#)

BACKEND JAVA DEVELOPER – PERSONAL PROJECT

- Designed and developed an application for generating and managing offers: Java 21 API with Spring Boot using a DDD approach.
- Secured API endpoints with Spring Security + JWT for stateless authentication; integration of Firebase Authentication for SSO / OAuth providers.
- Microservices architecture: separation of services (Offers and Users) with HTTP/REST communication. Containerized using Docker.
- Data persistence with PostgreSQL as the main database
- Code quality & testing: unit test coverage with JUnit 5 and Mockito
- GitHub repository: <https://github.com/FannyNh/offer/tree/main>

Objective: showcase backend Java skills in a production-like environment – modern security (JWT / Firebase), unit testing (TDD), and integration of a React frontend for a full-stack product.

Experience

11-2022 / 03-2023 FRANCE

Vue.js PHP Tailwind Docker Cypress UI Components

SENIOR FRONTEND DEVELOPER / HEYPONGO (Paris)

- Frontend development using Vue.js & PHP for Admin, Dashboard, and Tablet applications.
- Creation and maintenance of a reusable component library across applications.
- Redesign and optimization of internal Dashboard.

Impact: Reduced development time through reusable components, improved product usability.

12-2021 / 05-2022 FRANCE

Vue.js Nuxt UX/UI Mobile First

FRONTEND DEVELOPER / LOGOTEL (Paris)

- Development of features for Dashboard application, Community Platform, and internal CMS (Vue.js, Nuxt).
- Creation of interactive modules, contests, and multimedia content with mobile optimization.

Impact: Improved community platform engagement and user experience.

08-2020 / 10-2021 FRANCE

React JavaScript Dynamic Banners

FRONTEND DEVELOPER / ADVENTORI (Paris)

- Development of features for custom banner generator platform (React, JS).
- Development of showcase site and internal tools.
- UX/UI workshops, creation of mockups and UI assets, and internal website design.

Impact: Accelerated feature delivery across multiple brands.

08-2018 / 08-2020 FRANCE

Internal platform management Display

FRONTEND DEVELOPER (CREATIVE) / AIR FRANCE (Paris)

- Maintained and developed features for a banner management platform originally created by Adventori.
- Development and design of library animations and template banners for the DCO management platform.

Impact: Reduced costs by internalizing tasks previously handled externally.

11-2017 / 05-2018 FRANCE

Magento Shopify PHP Ruby

FRONTEND CMS DEVELOPER / SIXTHJUNE (Paris)

- E-commerce development (Magento, Shopify, PHP, Ruby).
- UX/UI and digital content optimization.

Thank you for taking the time to review my CV. If you have any questions or would like to know more about my background and achievements, feel free to contact me. You can also find me on LinkedIn or visit my website for more information. Looking forward to speaking with you soon.
